### So, what exactly is DEIA?

- **Diversity** is the practice of including many communities, identities, races, ethnicities, backgrounds, abilities, cultures and beliefs.
- **Equity** is the consistent and systematic, fair, just and impartial treatment of all individuals.
- **Inclusion** is the recognition, appreciation, and use of the talents and skills of employees of all backgrounds.
- **Accessibility** is the design, construction, development and maintenance of facilities, information and communication technology, programs and services so that all people, including people with disabilities, can fully and independently use them.

As we continue to build relationships across Shreveport Job Corps Center and incorporate a more friendly/personal environment DEIA will be launching our "Fist Bump". Pictured below is Mrs. Lyles, Director of HR at Sportran who had the opportunity to speak with our Office Administration students on November 15th. Mrs. Lyles can be seen fist bumping with a student after making a connection during her speech.

## What is focus, and why is it important?

Focus is the ability to concentrate on a specific task or goal, without being distracted by external or internal stimuli. In today's world, where distractions are everywhere, and our attention is constantly being pulled in different directions, the ability to focus has become a rare and valuable skill. Without focus, we can easily get bogged down in unimportant tasks, lose sight of our goals, and ultimately fail to achieve success.

The importance of focus is highlighted by the fact that many successful people attribute their achievements to their ability to stay focused.

By setting clear goals, eliminating distractions, prioritizing tasks, taking breaks, and visualizing success, we can develop our ability to focus and increase our chances of success.
